

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing Of Claims:**

Please amend the claims as follows:

1. (Currently Amended) A method for deleting threads from a discussion group comprising a plurality of posts[[,]] comprising:  
receiving a rating from ~~each of the~~ at least one users whether the post was useful;  
determining whether the at least one user has rated at least one post within the thread as useful;  
if at least one user has rated at least one post as useful, retaining the thread; and  
if at least one user has not rated at least one post as useful, then deleting the thread from the discussion group.
2. (Original) The method of claim 1, further comprising setting a delete date associated with the thread to a predetermined value.
3. (Currently Amended) The method of claim 2, wherein retaining the thread comprises resetting the delete date of the thread to the predetermined value.
4. (Original) The method of claim 3, wherein retaining the thread comprises leaving the delete date of the post unchanged.

5. (Currently Amended) The method of claim 3, wherein deleting the thread comprises:

determining whether the delete date of at least one post is equal to the current date; and

deleting the thread if the ~~deleted~~ delete date is equal to the current date.

6. (Original) The method of claim 1, wherein determining whether at least one user has rated at least one post within the thread, comprises:

storing the rating value in a field associated with the post; and

determining whether the user has affirmatively rated the post as positive.

7. (Original) The method of claim 6, wherein determining whether the rating field has a value indicative of a positive response, comprises:

determining whether at least one person opened the post; and

storing a positive value in the rating field associated with the post.

8. (Original) The method of claim 7, wherein determining whether the rating field has a value indicative of a positive response further comprises:

determining whether the user provided a positive response in response to an inquiry whether the post was useful.

9. (Currently Amended) The method of claim 2, wherein setting the delete date to a predetermined value[[,]] comprises:

determining the type of the ~~post~~ thread;

if the ~~post~~ thread is a first type then setting the delete date of the thread to a first predefined value;

if the ~~post~~ thread is a second type then the setting the delete date of the thread to a second predefined value,

wherein the first predefined value is less than the second predefined value.

10. (Currently Amended) The method of claim ~~[[8]]~~ 9, wherein the first type of thread ~~is selected from a list consisting essentially~~ comprises at least one of Question/Answer-type threads and Feedback-type threads.

11. (Currently Amended) The method of claim ~~[[8]]~~ 9, wherein the second type of thread comprises a General Comment-type post.

12. (Original) The method of claim 1, further comprising:  
displaying each post and the rating for each post on a display device.

13. (Currently Amended) A computer-readable storage medium having computer-executable instructions for performing deleting threads from a discussion group comprising a plurality of posts, comprising:

setting a delete date associated with the thread to a predetermined value;

updating the delete date of the thread if at least one post is rated positively by a user;

updating the delete date of the thread if;  
the thread is a first type of thread; and  
the thread contains at least one Answer-type post;  
determining whether the delete date of the thread is equal to the current date;  
and  
if the ~~deleted~~ delete date is equal to the current date, deleting the thread from the discussion group.

14. (Currently Amended) The computer-readable storage medium of claim 13, wherein determining whether at least one post has received a positive rating, comprising:  
determining whether at least one person opened the post: and  
updating the delete date of the thread if at least one person has opened the post.

15. (Currently Amended) The computer-readable storage medium of claim 13, wherein setting the delete date to a predetermined value, comprises:  
determining the type of the post;  
if the post is a first type, setting the delete date to a first predetermined value;  
and  
if the post is a second type, setting the delete date to a second predetermined value.

16. (Currently Amended) The computer-readable storage medium of claim 15, wherein the first type of post is selected from a list consisting essentially of Question type posts and Feedback type posts and the second type of post comprises a General Comment-type post.

17. (Currently Amended) A system for removing a thread comprising a plurality of posts from a discussion group comprising a plurality of posts, comprising:

a ~~client~~ server operable for:

receiving an input from a ~~user~~ client related to the rating of at least one post associated with the thread;

~~a server operable for:~~

~~displaying~~ returning at least one post of a thread ~~on~~ to the client;

receiving at least one rating associated with the post from the client;

determining whether to delete the thread associated with the post from ~~the~~ a database depending on the rating received from the client; and

a distributed network connecting the client ~~to~~ to the server.

18. (Currently Amended) The system of claim 17, wherein determining whether to delete the thread comprises:

determining whether the delete date of the thread is equal to the current date;

and

if the ~~deleted~~ delete date is equal to the current date, deleting the thread.

19. (Original) The system of claim 17, wherein the server is further operable for storing the received input from the client in a rating field associated with the post and the delete date associated with the thread.

20. (Currently Amended) The system of claim 17, further comprising:  
determining whether the input received from the client has a value indicative of being useful, comprising:  
determining whether at least one person opened the ~~constituent~~ at least one post of the thread; and  
updating the delete date of the thread if at least one person opened the ~~constituent~~ at least one post of the thread.

21. (Currently Amended) The system of claim 20, wherein updating the delete date of the thread, comprises:  
determining the type of the thread;  
setting the ~~deleted~~ delete date to a first predetermined value if the thread is a General Comment-type thread;  
setting the delete date to a second predetermined value if the thread comprises a Question/Answer-type thread; ~~and~~  
setting the delete date to a second predetermined value if the thread comprises a Feedback-type post; and  
wherein the second predefined value is less than the first predefined value.
